St. Jude Children's Research Hospital

St. Jude Children's Research Hospital, located in Memphis, Tennessee, is one of the world's premier centers for research and treatment of catastrophic diseases in children, primarily pediatric cancers. Discoveries made at St. Jude have completely changed how the world treats children with cancer and other catastrophic diseases.

Mission

The mission of St. Jude Children's Research Hospital is to advance cures, and means of prevention, for pediatric catastrophic diseases through research and treatment. Consistent with the vision of founder, **Danny Thomas**, no child is denied treatment based on race, religion or a family's ability to pay.

Research Focus

Research efforts are directed at understanding the molecular, genetic and chemical bases of catastrophic diseases in children, identifying cures for such diseases and promoting their prevention. Research is focused specifically on cancers, acquired and inherited immunodeficiencies, infectious diseases and genetic disorders.

All patients accepted for treatment at St. Jude are treated without regard to the family's ability to pay.

About the raffle:

- Tickets will be sold between 9:00 pm and 10:15 pm.
- Drawing will be at 10:30 pm
